

## Traffic Tech Wins Traffic Signal System Contracts for Lusail City

6 October 2010

Traffic Tech (Gulf) wins two contracts, valued at over US\$ 4 million, for the supply, installation, testing and commissioning of Traffic Signal System for Lusail City. The contracts were for Package 1 and Package 2 of the Lusail Development Project, awarded by Sino Hydro and Al Jaber & Partners respectively.

Lusail City, ([www.lusail.com](http://www.lusail.com)), a 2,100 hectare urban development situated at the north of Doha, was master-planned to address the increasing need for well-planned communities and neighborhoods in the midst of Qatar's economic boom. Lusail City will be home to a self-sustaining community, comprising residential, commercial, retail, leisure, resort, and entertainment venues.

Mr. Abdel Rahman Al Khateeb, Traffic Tech's Executive Vice President & COO comments, "We are proud to take part in Lusail City's development and to contribute our highly specialized expertise in traffic signal systems. Providing our services to key projects in Qatar, such as Lusail City, significantly sustains our growth objectives and strengthens our market leadership in the Gulf region".
